**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-13, drawn to a lamp assembly, classified in class 362, subclass 260.
  - II. Claims 14-21, drawn to a light supplying apparatus, classified in class 362, subclass 365.
  - III. Claims 22-28, drawn to a liquid crystal display device, classified in class 362, subclass 561.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions for a lamp assembly, light supplying apparatus, and a liquid crystal display device are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combinations as claimed do not require the particulars of the subcombinations as claimed because each combination [light supplying apparatus / liquid crystal display] claim does not specifically recite the subcombination limitations, but recites a broader version. The subcombinations have separate utility such as a lamp structure and its connection [lamp assembly: Claims 1-13] and a receiving structure for a lamp [light supplying apparatus: Claims 14-21].

The above patentably distinct inventions provide burden to the examiner in that each invention requires a substantially unique and different search:

- I. Claims 1-13: lamp construction
- II. Claims 14-21: lamp fixture / mounting structure
- III. Claims 22-28: liquid crystal display

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason M Han whose telephone number is (571) 272-2207. The examiner can normally be reached on 8:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on (571) 272-2378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
